Dear Tami,

I saw the Hazardous Waste Training offered by YRITWC and thought that the Incident Command System and Emergency response might be worth looking into, also potentially the oil spill awareness, as we have so much transient traffic. What do you think? Thanks,

Karen Pletnikoff

Health Village Environment E-News

Raising Awareness on Issues that Impact Public Health and the Environment

Water & Sanitation – Healthier Alaska Native Communities with Piped Water – ANTHC Publication (DEHE) Studies from rural Alaska show that families living in homes with running water and flush toilets have fewer illnesses than families that live in homes without these services. However, just having running water will not automatically make your family healthier. It is HOW water is use. [Click to view the manual.](#)

Mining – Meeting is precursor to Pebble science sessions - ADN (12/1/10) To provide context for the upcoming Pebble mine science sessions, the KeystoneCenter, a Colorado-based nonprofit, will present

an all-day panel presentation about large-scale mining from around the world Tomorrow in Anchorage. Click here for more details.

Health – The Healthy People 2020 Released Today - Office of Disease Prevention and Health Promotion (12/2/10) Healthy People provides science-based, 10-year national objectives for improving the health of all Americans. Click here to review the 2020 Environmental Health goals.

Hazardous Waste Training – Yukon River Tribal Watershed Council (YRITWC) - This winter the YRITWC will be hosting their annual Hazardous Waste Technician Trainings in Fairbanks. They will include 40hr. HAZWOPER, Oil Spill Awareness, Confined Space Awareness, Emergency Response, First Aide / CPR, etc. Click here for more information.

If there's anything that you'd like for us to include in future e-news distributions, please e-mail the request to droehl@anthc.org. We will be featuring environmental/health news reports, village success stories, latest research, and more.

Please forward to anyone you think might be interested. To be added to the Healthy Village Environment E-News mailing list, send me an e-mail with your contact information (name/organization/location/e-mail) to droehl@anthc.org. We also distribute the Alaska Climate & Health E-News. If you would like to be added to that distribution list e-mail your contact information to mbrubaker@anthc.org.
